

QUALITY POLICY STATEMENT

Edge Technical Solution LLC aims for the highest standard of building and support services within the UAE construction & service industry and intend to grow as a leading system solution provider by continuing to provide client satisfaction and to generate further business opportunities through operating in a safe, efficient, and profitable manner.

The principal aims of company are:

- To have a real understanding of clients and their business requirements.
- To strengthen relationships and encourage repeat business with existing clients.
- To win work not solely on price but through innovation and added value.
- To continually strive to improve our performance through analysis and continuous improvement of business processes.
- To develop staff potential through the provision of appropriate training.
- To engender a positive commitment to quality and create an environment of teamwork and cooperation that enables staff to work effectively.
- To support staff in their day-to-day work by developing an accredited management system that links all business activities within the organization and is documented to meet future reference requirements

The Directors of the company have specific responsibility for providing the necessary organization and resources to implement this policy in all aspects of the business – Sales, Estimation, Support & Technical departments.

Shibi Kabeer
